

# SlimLipo™

Palomar®  
**SlimLipo™**  
BODY SCULPTING LASER

True Laser  
*Body Sculpting*

before

after

Jeff O. Angobaldo, MD

*“I have found SlimLipo™ to have a particular advantage in the upper abdomen, neck, chest and anywhere laxity of skin becomes a problem.”*  
—Steven Bloch, MD

*“SlimLipo™ is truly unique. The selective fat melting allows me to treat multiple areas—even larger areas—leaving smooth skin you can see and feel.”*  
—Jeffrey Schafer, MD

Jeff O. Angobaldo, MD

*“I've noticed a dramatic reduction in bruising, swelling, bleeding and post operative pain. I have achieved very good tightening in areas where I would have traditionally made a long incision for skin removal, including gynecomastia and upper arms.”*  
—Jeff O. Angobaldo, MD

# Remarkable Results

with SlimLipo™

“The SlimLipo™ result is dramatic with smooth skin that does not look or feel like other methods of liposuction. It's worth buying just for the results in the submental area treated under local anesthesia”  
—Phillip Craft, MD

before

after

Phillip Craft, MD

- Smoother Skin
- Skin Retraction
- Less Contour Deformities
- Faster Healing

“As a plastic surgeon starting a new practice I was very apprehensive about capital purchases. The investment in SlimLipo turned out to be a wise one and well worth it. SlimLipo sells itself with my before and after photos as prospective patients are very impressed by the results.”

—Jeff O. Angobaldo, MD

“SlimLipo™ is a revolutionary technology which will change plastic surgery—the skin tightening application will replace some body contouring surgical procedures.”  
—Brooke Seckel, MD
