## Want to get slim ?

Renu Laser Center is now offering Life Sculpt, an effective device for melting unwanted fat, without tearing through tissue structure, unlike traditional liposuction.

The results are amazing, with less body trauma, and significant fat removal.

Dermal heating is also used during this procedure, which has shown to have great skin tightening results.

Life Sculpt Body Sculpting is a minimally invasive surgical procedure done in the office that “ melts” and removes unwanted fat cells, in as little as an hour. You will experience minimal discomfort and very little downtime.

We offer the latest in laser technology services, such as **Life Sculpt**, and **Candela Gentle Yag**. Our Candela Gentle Yag laser is the only one of its kind,

and offers treatments for all skin types, from light to dark, even tanned skin.

Renu Laser Center currently offers laser treatments for hair removal, removal of leg and facial veins, acne, skin rejuvenation & tightening and more. We also offer **Serenity** in combination with our laser treatments for painless, more effective laser treatments.

Renu Laser Center offers, in addition to our laser therapies, **Microdermabrasion** treatments and specialized chemical/facial treatments. We also carry specialized skin care product lines such as **Avene**, **Glytone**, **Therapon-Theraderm** and **Couvance** (correction make-up).

Call Renu today and schedule your free consultation and discover what we have to offer you.
